Product Images

Short Description

The Atomex GM-70G petrol airless sprayers can be purchased as a bare 'stage pump' when a full airless sprayer package is not required.

Description

The Atomex GM-70G petrol airless sprayers can be purchased as a bare 'stage pump' when a full airless sprayer package is not required.

The Atomex GM-70G petrol airless sprayer can be purchased in five stages when a full airless sprayer package is not required. In certain situations you may not require a gun and hose or a trolley for example, so various stages of the package can be purchased to suit your requirements

Atomex GM-70G Petrol Stage 4 Bare Pump Includes:

The Atomex GM-70G stage 4 bare pump is a complete pump/Honda petrol motor with pressure gauge and "T" piece mounted on a chrome plated trolley with wheels.

The Atomex GM-70G airless paint sprayer features:

Australian EPA Compliant Honda GX-160 Petrol Motor

No electronics, sensors or microprocessors to fail

Pump will support 45m of paint hose for greater access

25 Months Warranty for commercial use

Simple mechanical pump designed that has been used for over 35 years

Atomex is Australian Owned
