Short Description

The Atomex XM-30 air powered airless sprayer is ideal for industrial finishing such as trailers, machinery, metal fabrication and furniture. The low air consumption makes this an ideal and economical airless sprayer for your high production work line.

Description

The Atomex XM-30 air powered airless sprayers are specially designed for both small and large workshops using low air consumption while delivering fast spray finishes. The long slow piston stroke delivers no pulsation at the spray tip ensuring a high quality finish on every pass. Large high pressure fluid filters are standard on this model to reduce rubbish in the paint causing tip blockages and wear. Simple design cart with wheels and paint hose hooks allows you to pack this compact unit away taking minimal space.

Atomex XM-30 Air Powered Airless Sprayer Bare Suction

The Atomex XM-30 air powered airless sprayer comes standard with 20 litre drum suction hose set and high pressure fluid filter.
